TRAIL CONDITIONS & REPORTS

Prior to riding, it is recommended to check [Trailforks.com](https://www.trailforks.com) for the most current trail condition information. Every effort is made to provide up to date information; however, the forest can be unpredictable.

Always ride with caution. Please report any trail issues on [Trailforks.com](https://www.trailforks.com), via email to pembertoncycling@gmail.com or call 08 9776 1133.

WA MOUNTAIN BIKERS CODE

Safety	Be prepared. Know yourself, your bike and your way.	Check trail conditions; tell someone your plans; take enough water, clothes and first aid. Check your bike, helmet and gear; read the trailhead and choose your trail. Ride within your skills and abilities.
Environment	Respect your trail and the environment.	Follow signage, stay on track and don't take shortcuts. Protect wildlife and plants; take rubbish home; prevent spreading dieback; keep your bike and gear clean.
Attitude	Make it a good experience.	Share the trail; pass safely and courteously; help others out.

EMERGENCY INFORMATION

Emergencies:
In the event of an emergency, phone Triple Zero (000).
Emergency hospitals are located in Pemberton and Manjimup.

Save the app that could save your life

Note: If there is no mobile phone coverage you WILL NOT be able to call 000 but the app will provide you with GPS location details.

Mountain biking is a potentially dangerous activity.
It should only be undertaken with a full understanding of all the inherent risks. The information provided must be used along with your own experience, intuition and careful judgement.

Ride with a buddy.
There are areas where you may not have mobile reception, so it's always a good idea to ride with a buddy.

Climb Route

Mostly Downhill

Cross-country

Mostly Flat

Multi-use
Bikers yield to hikers; ride in control at all times

Fire road

Link Trail

The main climbing trail to access the trails on the main hill. It is wide with plenty of switchbacks, but still has some steeper gradients in places.

Return Trail

An easy, scenic multi-directional trail for both hikers and bikers that utilises a section of the Munda Biddi trail.

Pumphill Uphill

The main access to trails at the top of Pump Hill, this trail features rollers and switchbacks as it winds through the stunning Karri forest.

Mark Up

A short, punchy ascent that links the trails on the two sides of Pumphill Road and provides a return from Down Dale.

Pinch Track

After some technical rocky pinches near the start, the trail eases into a gentle climb that meanders through the forest on the back of the main hill. Merge onto Trevor's Trail, Cool Running Uphill or Hell Mile to continue your climb.

Easy Peasy

A gentle trail suitable for beginner riders. Its lack of features is compensated by picturesque Karri forest and dense undergrowth, making it good for both climbing and descending.

Railway Run

A mild-mannered XC loop with roots and rollers located in the flat zone. Great for a warm up or to ride along Swimming Pool Road.

Ankle Biters

A short loop perfect for beginner riders. A very gentle uphill is followed by a subtle descent, with a few small whoops and corners.

Skills Loop

A great introduction to off-road cycling with natural and constructed features in the flat zone of the park. Expect small rollers and berms, roots and wide, flat trail great for beginners.

Down Dale

A short but sweet machine-built descent with a few rollers and pumps, connecting the trails on the two sides of Pumphill Road.

Longshanks

A long, technical descent with corners, small natural berms and rollers. There are some steeper sections to challenge developing riders.

Old Trout Hatchery Bridge

Primarily a link across the creek, passing the Old Trout Hatchery with a steep entry and exit. Offers a scenic loop opportunity for beginner riders.

Backtrack

A short return trail from Centre Track that merges onto Skills Loop.

Start Me Up

A short and flowy entry trail to get you pumped up, taking you from the carpark to the Bibbulmun Track bridge and Link Trail climb.

Tech Track

A fun, technical loop trail that incorporates built wooden features, such as a seesaw, drops and a skinny.

Blue Skills

Three short, fun machine-built descents that offer easily repeatable loops good for skills practise. The first is a technical trail with wooden features and drops, the second has small rollers to get you pumping while the third is a jump line with some beginner friendly tabletops. Finish each trail and head straight back up via Backtrack to keep the session going.

Bandit's Rise

A steady climb trail full of switchbacks and sweeping scenic vistas. It has a fairly gentle gradient but steepens towards the top, so save some gas in the tank for the last few switchbacks. Several trails link on or off, creating multiple route options.

Cool Running Uphill

A steep climb trail from the trout hatchery to the trail head at the top of the main hill. Tight, technical switchbacks briefly give way to a more mellow climb, before finishing on a steep pitch straight to the top of the hill.

Hell Mile

A challenging and physical cross-country Olympic trail with multiple climbs and short descents. Named for its gruelling first half with relentless and technical pinch climbs, the track mellows once it passes Pinch Track for a gentler XC ride to the summit.

Relentless Blue

A fast, technical descent with a pallet drop, the infamous wall rides and a steep wooden roller. A highlight trail of Pemberton with a good mix of flow, tech and thrills.

The Loop

A short, punchy descent with a few natural drops, followed by a mellow ascent back to the trailhead.

Black and Blue

A short cross-country style trail that links from the end of Relentless Blue DH to the pool. It splits into two options: Blue, a short and quick descent; and Black, a longer, more challenging trail that traverses up and down the contour.

Pirate Trail

A rough and technical cross-country track with fast descents and pinch climbs. Expect rocks, roots, log drops and off-camber corners.

Nearly Gnarly

A cross-country delight, the trail winds through dense forest understorey that creates a natural tunnel. Experience gentle climbs and descents featuring rollers, natural obstacles and some fast sweeping curves.

Wahoo

A fast technical descent with tight corners, off-camber sections, a rock garden and grade reversals that keep riders on their toes.

Cool Running DH

A fast, flowing machine-built descent littered with sweeping berms, rollers and jumps that offer plenty of air time.

Drop Bear

A technical descent with tight corners and natural berms that create a flowy, non-stop ride to the bottom.

Just Because

A short, steep and technical climb trail that just as quickly descends and merges with Link Trail.

Woodcutters

A multi-use wide, open trail that offers spectacular vistas and access to and from trails on the main hill. It has a steady gradient which steepens just before the summit, making it a direct but gruelling way to get to the top.

Trevor's Trail

A multi-use fire road that spans the back of the main hill and can be used to access the trailhead at the summit. The eastern side goes straight up the hill without a forgiving break, making it a gruelling climb or push up to the top. The western side has a gentler gradient sandwiched between two steeper sections and some spectacular scenery.

Centre Track

A dual direction multi-use access trail that runs centrally through the flat section of the park. It is wide, flat and featureless, making it a great option for beginner riders.

Heaven and Hard Work

A multi-use fire access road that starts at the bottom of Pumphill Road, offering access to Easy Peasy and an exit from Nearly Gnarly. It is wide with a steady gradient.

Pump Track

A great practise zone for beginner riders with gentle rolling pumps, humps and corners on a looped, multi-directional circuit.

Dirt Jumps

Technical, sky-sending jumps with steep constructed lips that progress quickly in size and difficulty. Suitable for advanced riders only.

Bloody Mary

A challenging machine-built flow descent for advanced mountain bike riders. Plenty of berms, jumps and wooden features make it a rollercoaster from top to bottom.

Fingertips

A quick link track from Woodcutters to Bloody Mary. A technical trail with a steep roll in that hugs the contour line.

Vanilla Slice

A steep and technical descent suited to experienced riders. Expect steep, loose chutes with natural tech features coupled with sharp, off-camber corners and a climbing traverse midway.

Nationals

A challenging, technical XC trail. It is rocky and rolling with off-camber trail and pinch climbs, suited to intermediate to experienced riders.
